

**FOR IMMEDIATE RELEASE**

## **Dynamo Technologies Acquires Victory Solutions**

### **Acquisition Strengthens Capabilities and Supports Strategic Growth**

**Vienna, VA | January 9, 2026** — Dynamo Technologies announced today that it has acquired Victory Solutions, a respected provider of mission-focused technology and government support services. The acquisition closed on January 9, 2026.

Victory Solutions will continue operating as a separate organization and brand, now designated as a *Dynamo Company*, ensuring continuity for clients and employees while gaining access to Dynamo's broader resources and expertise.

"This acquisition marks an important step in Dynamo's strategic growth," said Alex Duan, CEO of Dynamo Technologies. "Victory Solutions brings strong capabilities, a talented team, and a shared commitment to excellence."

"Joining Dynamo allows us to build on our momentum while maintaining our identity and focus on our clients," said Kris McGuire of Victory Solutions.

Clients can expect uninterrupted service and enhanced depth and support as the companies move forward together. Additional details will be shared in the coming weeks.

### **About Dynamo Technologies**

Dynamo Technologies delivers digital transformation technologies and services to government clients, combining innovation, collaboration, and a human-centered approach to produce impactful results.

### **About Victory Solutions**

Victory Solutions develops engineering products and services supporting space exploration, warfighter success, and digital transformation. As a Dynamo Company, it remains focused on technical excellence and mission-driven solutions.
